

BEACHES.GI

Rate Card

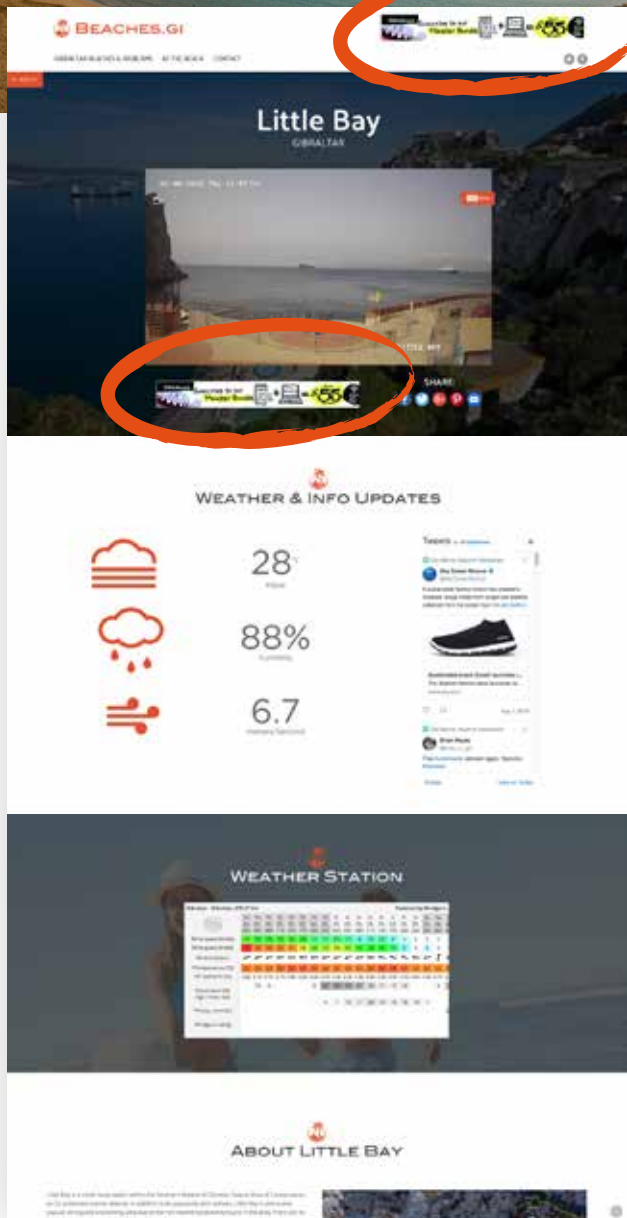

Beaches.gi is the only website in Gibraltar that has live webcam streams of all beaches. Via these streams visitors can see the weather, sea conditions and the lifeguard flags.

The site also includes live weather data and twitter feeds from relevant authorities. The website is designed to work well on all devices, from mobiles to tablets to desktops.

We will be adding other webcams shortly.

Supported by the Ministry of the Environment, Beaches.gi is set to become a very popular website with beach goers and the local community.

We are looking for advertisers who wish to promote their business or service on our website and have two different opportunities at the moment.

TOP BANNER:

Displayed on all pages at the top right of the screen on desktops and tablets, under the logo and menu on mobile.

£150 per month

MID BANNER:

Displayed directly under the live stream on all the beaches. *Not on the homepage.*

£125 per month
